

## Parking Fine Increase

The Village recently amended the parking fee schedule, with most fines increasing from \$15 to \$25. Parking meter violations in the central business district have increased from \$5 and \$10 to \$15. The adjustment to the parking fine structure is the first since 2006. Fees are occasionally amended to ensure they continue to serve as a deterrent for repeated parking offenses. This action also brings the Village closer to the average fees assigned in neighboring municipalities as determined by a recent survey.
