## IV. OTHER GOVERNMENTAL FUNDS

The Other Governmental Funds are special revenue funds of the Village. They account for inflows of specific revenue sources that are restricted or committed for specific purposes other than capital projects or debt service.

Fire Service Fund.....	4-1
Glen Ellyn Volunteer Fire Company Draft Budget.....	4-6
Fire Company Equipment Replacement Schedule .....	4-7
Tax Increment Financing Funds (TIF) .....	4-8
Central Business District TIF .....	4-9
Roosevelt Road TIF .....	4-11
Forfeiture Fund.....	4-13
American Rescue Plan (ARPA) Fund.....	4-15

## **FIRE SERVICE FUND**

The Village and Fire Company have had a strong and symbiotic relationship for decades as both agencies have worked collaboratively to provide vital services to the community. This long standing affiliation was formalized through an Intergovernmental Agreement (IGA) in 2014 in conjunction with the approval of the Fire Service Fee.

In 2013, the Village completed a statistical comparison of Glen Ellyn to nine other comparable communities in the area. This analysis resulted in the 2013 Financial Scorecard which provided some insight as to how the GEVFC benefits the entire Glen Ellyn community. According to the study, the Volunteer Fire Company saves the Village over \$3M per year by using the volunteer model. In addition, Glen Ellyn has the lowest amount of unfunded pensions in the sample group on a per capita basis, which is a direct result of not having a career fire department which creates additional pension liabilities. These benefits are substantial, but do not tell the entire story. The GEVFC is an ISO 3-rated department, which has provided emergency services for this community for over 100 years and oversees and supports EMS services that are provided on a contractual basis. Currently there are over 60 Volunteers that continue to provide this critical service to the community for \$1 per year.

On December 9, 2013, the Village Board approved a monthly fee for Glen Ellyn residents and businesses in order to fund the Glen Ellyn Volunteer Fire Company (GEVFC) and maintain a path of financial sustainability. In the past, the GEVFC had a donation program which for many years had met their funding needs. However, the donation program had dwindled and was no longer deemed a fair and equitable approach to funding an essential service like fire and emergency response when only 20% of the properties were participating. Given the operational, capital and facility needs of the Company and how the long-standing donation program was not keeping up with those needs, the Village Board instituted this new fee that went into effect May 1, 2014. The Fire Services Fund was created when this new fee went into effect.

In 2017, the Village Board instituted a Capital Fire Service Fee which would be dedicated solely to meeting the needs of the Fire fleet of vehicles as well as to meet ongoing building maintenance and improvements to the two aging fire stations. This Capital Fire Service Fee went into effect on the October 1, 2017 Village Services Bill. In 2021, the Village Board re-allocated 40% of the Capital Fire Service Fee to an EMS Service Fee. The goal of this reallocation was to provide funding for improvements to the Village's EMS structure, introducing supervisors and a rapid response vehicle.

In addition to this funding, the Village supports the Volunteer Fire Company in a number of ways. The Village owns and maintains two fire stations, maintains the Fire fleet and assists in coordinating a replacement schedule, as well as provides IT, HR, and some accounting/financial assistance. The Village also pays for dispatch services through DuComm and assists the overall management of EMS services through a Village contract with Metro. These life safety responsibilities are critical functions for all municipalities, so the Village and Fire Company have and will continue to work closely to provide emergency services through the volunteer model that has saved the Village and Village taxpayers millions of dollars annually.

## TAX INCREMENT FINANCING FUNDS

Illinois law allows municipalities the ability to designate areas within the municipality's jurisdiction as Tax Increment Financing (TIF) Districts. These districts are used by municipalities as a way to spur economic growth by dedicating additional property tax revenues generated within the TIF district for improvements within the district with the hope of encouraging economic development. Revenues from property tax increment and redevelopment expenditures are accounted for within the respective TIF Funds.

The Village of Glen Ellyn has two Tax Increment Financing (TIF) Funds.

**Central Business District (CBD) TIF Fund:** The CBD TIF Fund was established in early 2012 to provide for economic development within the Central Business District. TIF startup costs were incurred in FY2012 and were reimbursed with increment received in FY2014. The CBD TIF remains in its infancy; and thus little expenditures have occurred from inception to date. For FY2019, the Village is budgeting to continue the economic development incentive award programs. The Village has approved two TIF redevelopment agreements in 2019. Avere on Duane was completed in Spring 2021 and Apex is anticipated to be completed in late 2022. The Village Board approved a redevelopment agreement for Glenwood Station in December 2020. That project is not anticipated to begin construction till late 2021/early 2022.

**Roosevelt Road TIF Fund:** The Village began the process of establishing a TIF district n Roosevelt Road between Main Street and Nicoll Way for the purpose of revitalizing this main thoroughfare in Glen Ellyn. The formal adoption of the TIF occurred in late 2013. TIF startup costs were incurred in FY2014 and are being repaid with TIF increment as it is received. This TIF is also in its infancy, and thus little expenditures have occurred from inception to date. In 2021, the Village entered into a contract to purchase a hotel in the TIF with the goal of incentivizing redevelopment on the site. The Village has engaged a consultant to assist with the process.

## **FORFEITURE FUND**

The Forfeiture Fund was new to the budget in Fiscal Year 2018. Previously, these accounts were included in the General Fund budget. The Village has three sources of forfeiture funds including seized property, state drug forfeiture funds, and federal drug forfeiture funds. Each set of funds has specific regulations regarding its use according to federal and state statutes.

The largest funding source for the Forfeiture Fund is the Federal Forfeiture Program. The Village receives a share of forfeitures for its participation in this program. The program has specific rules that does not allow the Village to anticipate/use shares before they are received. Therefore, there is no revenue budgeted for this program each year. However, actual receipts can range from \$300,000 to \$500,000 annually. The program also requires that the Village cannot use these funds for expenses that it previously paid for with General Fund sources. The Village evaluates projects as they occur to determine if they will be paid with available forfeiture funds or with General Fund monies.

### **2022 Budget**

Due to administrative delays in processing reimbursements to municipalities, the Village has not received any substantial receipts since the beginning of 2020. The Village budget does not include receipts or expenditures for 2022 as the federal program prohibits anticipation of receipts. Should the Village begin to receive receipts again at the end of 2021 or in 2022, a budget amendment will be brought to the Village board.

## **AMERICAN RESCUE PLAN ACT (ARPA) FUND**

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law. The law provided \$1.9 trillion in economic stimulus and Covid-19 funding and directed \$65.1 billion in financial assistance to municipalities nationwide.

### **Funding Amount/Time Period**

The Village has been designated as a non-entitlement unit of local government (NEU). This means that the Village's funding will be passed through to the Village from the State rather than directly from the federal government. The Village received notification on July 21, 2021 that the Village is currently estimated to receive \$3.77 million in ARPA Funds. The Village received its first payment of \$1.88 million in September 2021 and will receive the second payment approximately a year later (September 2022) Funds must be obligated by December 2024 and must be spent by December 2026.

### **High Level Funding Principals**

It is important for to adopt high level funding principals. These should guide all decisions in how to allocate funds:

1. The ARPA funds are one-time funds and should be spent in a way to avoid reoccurring costs and should not be used to replace operating funds, except to the extent that that they mitigate the short-term economic impact of the pandemic to the Village.
2. Outside of costs directly related to a response to the Covid-19 pandemic, to the extent possible, the funds should be used to achieve long-lasting benefits for the Village's residents and businesses. Projects with long-term benefits should be favored over those that have a short-term benefit.
3. Funds should be used in a manner consistent with the guidance and intent of the Act and effort should be made to reduce administrative cost and burden of using the funds.
4. The Village should maintain flexibility to reallocate funding consistent with the program guidelines.

### **ARPA Spending Categories**

The Act highlights five spending categories:

1. Supporting Public Health Expenditures
2. Addressing negative economic impacts caused by the public health emergency
3. Replace lost public sector revenue
4. Premium pay for essential workers
5. Invest in water, sewer and broadband infrastructure

### **Unallowable Expenses**

The Act highlights the following expenses as NOT allowable:

1. Replacing revenues due to a local tax cut or a local tax refund
2. Making pension payments
3. Funding debt service

4. Paying for legal settlements or judgements
5. Depositing funds into a rainy day or creating financial reserves
6. Spending on general infrastructure projects not authorized such as park improvements, playground equipment, or road or bridge maintenance

### **2022 Budget**

The 2022 budget allocates \$1.4 million in ARPA funding to allowable spending categories:

1. Public Health Response - \$50,000: This amount will cover \$20,000 in direct covid-19 related expenses and also proposes \$30,000 in additional behavioral health services allowed by the Act.
2. Replace Public Sector Lost Revenue – This includes \$500,000 of support to other taxing bodies, \$350,000 to support the Village’s Parking Fund which has been impacted by the pandemic, and \$250,000 to support lost revenue in 2020 in the General Fund.
3. Address Negative Economic Impacts of Covid-19 – This includes \$125,000 in business support, either directly to businesses or through support of business organizations, \$75,000 in water & sewer bill assistance, \$25,000 in tourism and business support through programs such as the polar plaza, and \$25,000 in community grants to be targeted to other community organizations.

The 2022 budget allocates \$1.4 million of funding, leaving \$2.37 million to be allocated. As the monies will not be received until late 2022, it is recommended to allocate these dollars through a budget amendment late in 2022 or via the 2023 budget process. Some suggested other uses for these remaining funds may include items such as additional behavioral health support, water and sewer infrastructure, or affordable housing.
