

Knox Key Boxes

The Village of Glen Ellyn and the Volunteer Fire Company encourage all building and business owners to purchase a key box for the building and business to give the fire department quick access during an emergency. The link for ordering a Knox Key Box is:

<https://www.knoxbox.com/Support/Instructions>

Follow the instructions by hitting the red “**BUY**” button. Enter ILLINIOIS and select “Glen Ellyn Vol Fire Co” as the department agency.

The site will direct you to the product page where you can purchase a commercial or residential Knox Key Box that is coded for use within the Glen Ellyn Jurisdiction. Once you receive and install the box, call the Fire Company at 630-469-5255 to arrange for a firefighter to meet you to lock up the key.

Building and business owners which already have fire department key boxes are required by village code to notify the fire department when building locks and keys are changed. Telephone the Glen Ellyn Fire Department at 630-469-5255 to arrange for a firefighter to meet you to secure the new keys in the lock box.
